1. EXECUTIVE ABSTRACT

This comprehensive report documents a five-week community engagement internship (1 June 2026 to 6 July 2026) completed by Krishna Mahato, a prospective teacher in the B.Ed. programme at Amity Institute of Education, Amity University Uttar Pradesh. Undertaken as part of course Community Work (EDCW100), the project fulfilled dual objectives: (1) delivering competency-based foundational literacy and numeracy to 4-6 year old kindergarten learners (Nursery, LKG, UKG) for 80 verified hours at Pehchaan The Street School in the Sector 35 Morna Village slum area of Noida; and (2) designing and conducting 50 hours of adult literacy and critical life-skills sessions for five non-literate and semi-literate community workers (security guards and sanitation cleaners aged 20-45) under the Government of India's ULLAS (Understanding Lifelong Learning for All in Society) initiative.

Key Empirical Metrics:

- Total Engagement Duration: 5 Weeks (1 June 2026 - 6 July 2026)
- Child Education Practice: 80 Verified On-Ground Teaching Hours (Annexure 4 Certificate)
- Kindergarten Cohort: 25+ Children across Nursery, LKG, and UKG (Ages 4-6)
- Adult Literacy Practice: 50 Hours of Instructional Sessions under ULLAS / NILP Scheme
- Adult Cohort: 5 Adult Learners (2 Security Guards, 3 Cleaners; Ages 20-45)
- Assessment Outcomes: Post-assessment demonstrated >60% score achievement in foundational skills
- Official Turnitin Similarity Index: 6% (Original academic documentation)

2. COMMUNITY PROFILE & BACKGROUND

The on-ground field engagement took place at the Morna Village community centre in Sector 35, Noida. Learners comprised children from migrant laborer and informal-settlement families. Baseline diagnostic testing in Week 1 revealed marked learning vulnerabilities: several children enrolled in Class 4 at local municipal schools could not construct basic sentences or recognize Hindi/English alphabets accurately. Consequently, pedagogical intervention was anchored in foundational phonics, multi-sensory tracing, and tiered ability-based grouping.

3. CHILD EDUCATION INTERVENTION (80 HOURS)

The 80-hour kindergarten instructional sequence was executed collaboratively across 5 weeks, integrating competency-based pedagogy, play-based numeracy, and continuous diagnostic evaluation:

Week 1 (1–6 June 2026) · 14 Hours

Organizational induction by Founder Akash Tandon; baseline diagnostic evaluation of 25+ children; ability-based grouping; motor skills development (line and circle tracing); alphabet recognition A-Z; number chanting 1-100; daily 15-minute shape drawing.

Week 2 (8–14 June 2026) · 18 Hours

Structured worksheet tracing for non-writers; alphabet recitation; numbers 1-50 writing and identification; elimination alphabet loop game; geometric shape drawing (creating helicopters, dolls, and vehicles using circles, rectangles, and squares); robotics workshop observation.

Week 3 (15–21 June 2026) · 18 Hours

Differentiated instruction: English phonetic word association (A for Axe, Apple; B for Ball); Hindi Varnamala introduction; interactive student callouts; mathematics differentiated into single-digit addition and subtraction alongside number sequencing.

Week 4 (22–28 June 2026) · 12 Hours

Vocabulary-to-illustration activities; bilingual word-building; 2-digit addition with carry-over scaffolding; daily public speaking and hesitation-removal exercises; alphabet-picture matching handouts.

Week 5 (29 June – 6 July 2026) · 18 Hours

Storytelling reading circle (oral retellings including rabbit-tortoise fable); "Maths Market" real-world currency simulation (calculating fruit costs, e.g., 3 apples at Rs 5); comprehensive 40-mark diagnostic post-assessment; "Mystery Bag" vocabulary acting/drawing game; revision and farewell.

TOTAL NGO CHILD EDUCATION HOURS: 80 HOURS VERIFIED

4. ULLAS ADULT LITERACY INITIATIVE (50 HOURS)

Conducted under the centrally sponsored New India Literacy Programme (NILP / ULLAS) aligned with NEP 2020. The curriculum provided foundational numeracy, spoken communication, legal signature capability, and functional life literacy for adult workers.

Adult Learner Profiles:

- 1. Anshul (30 yrs, Security Guard)**
Background: Completed Class 8th · Needed spoken English, digital apps & formal writing
- 2. Ram Lakhan (20 yrs, Security Guard)**
Background: Completed Class 8th · Counseled to pursue secondary school completion
- 3. Gyashi Lal (45 yrs, Sanitation Cleaner)**
Background: Never attended school · Started from alphabet tracing, counting & signatures
- 4. Teeja (40 yrs, Sanitation Cleaner)**
Background: Never attended school · Empowered with legal signature & utility bill literacy
- 5. Jyothi (28 yrs, Sanitation Cleaner)**
Background: Completed Class 8th · Advanced through Hindi reading & household budgeting

5-Week Adult Curriculum Progression (10 Hours / Week = 50 Hours):

- Week 1: Learner profiling; bifurcation into dual streams (spoken communication vs basic writing/reading).
- Week 2: Official signature training (replacing thumbprints); form-filling practice; basic market arithmetic.
- Week 3: Literature & value-based reading: Hindi reading of the Bhagavad Gita and English reading of Paulo Coelho's "The Alchemist" to expand horizons.
- Week 4: Functional digital & financial literacy: Smartphone navigation, computer literacy, electricity/water bill comprehension, family budget recording.
- Week 5: Comprehensive evaluation: reading comprehension passages, spoken Hindi/English fluency checks, and practical money calculation assessments.

TOTAL ULLAS ADULT LITERACY HOURS: 50 HOURS VERIFIED

5. COURSE LEARNING OUTCOMES & REFLECTION

CLO 1 (Remember)

Internalized ethical norms of community education, punctuality, and professional accountability in informal learning spaces.

CLO 2 (Understand)

Recognized socio-economic determinants of education; appreciated literacy as an engine of dignity and poverty alleviation.

CLO 3 (Apply)

Operationalized competency-based instruction, activity learning, and conflict-resolution strategies in lively nursery environments.

CLO 4 (Analyze)

Critically evaluated personal teaching strengths; acknowledged early hesitancy and the indispensable need for rigorous lesson planning.

CLO 5 (Evaluate)

Appraised pedagogical methods, demonstrating that hybridizing traditional drill with learner-centric simulations maximizes retention.

CLO 6 (Create)

Authored diagnostic test instruments (40-mark UKG sheet), custom visual-motor maze worksheets, and experiential math simulations.

6. CHALLENGES ENCOUNTERED & SOLUTIONS ADOPTED

- Wide Disparity in Baseline Skills: Resolved through diagnostic ability-based grouping and split-group instruction.
- Restless Attention Spans in 4-6 Year Olds: Addressed by integrating kinetic games (Hands Up/Down, Mystery Bag, breathing pauses).
- Adult Learner Self-Consciousness & Hesitation: Countered through non-judgmental positive reinforcement and practical real-life examples (bills, wages).
- Resource Scarcity in Slum Classroom: Leveraged low-cost locally available items, reusable chalkboards, and self-illustrated flashcards.

CONCLUSION & INSTITUTIONAL RECORD:

This community internship stands as verified evidence of Krishna Mahato's pedagogical commitment, demonstrating versatile competence in both early-childhood foundational education and adult social transformation.
